## ROVAL SEMI RECESSED HIGH SPEED HAND DRYER

	A
Mens	1200mm
Womens	1150mm
Childrens (11-15yrs)	1110mm
Childrens (5-10yrs)	850mm
Disabled	1000mm

### DESCRIPTION

The ASI Roval AS20199 hand drier is a fully automatic semi recess mounted, sensor activated drier suitable for installation in any commercial bathroom, where good looks and fast drying time are required.

With a high delivery fan, AS20199 will dry hands in approximately 15 seconds. Because of this there is a higher than normal noise level.

The main body is 1.0mm powder coated steel with a 1.2mm Type 304 stainless steel 1 piece pressed (curved) front cover offering additional strength and superior finish. Cover is fixed to main body using concealed pin-hex security screws.

### INSTALLATION

Drier is designed to be recessed into wall cavity according to Rough Wall Opening (below).

Fix to wall as per dimensions (above) using 4 x M5 screws (by others) or masonry anchors if applicable.

**Rough Wall Opening:** 267W x 384H x 83D

Electrician to supply power via optional knockouts in main body as shown on drawing, all according to installation instructions supplied with each drier.
