

AS8203-M-NZ FOLD UP SHOWER SEAT

DESCRIPTION

A 304 stainless steel framed and supported shower seat, which is suitable for any commercial washroom space where seating is required for ease of showering.

- Dimensions comply with Acceptable Solutions G1/AS1 and Building Act requirements for accessible bathroom use.
- The foldable, white seat top is covered with a solid phenolic resin seat top for durability.
- Seat features strut support which slides in a detent guide for seat support and wall surface protection.
- All structural elements are fully welded, ground and polished to a smooth finish.
- All stainless steel has a No 4 finish.

STRENGTH

To withstand the shear, tension or pullout, and torsion loads generated by the maximum loading, the fastener system must be adequately sized. Unit will carry a load of 500 lbs (226kg) if properly installed. The supporting wall must be adequately reinforced to carry the rated load for the products lifetime.

INSTALLATION

- Seat is fixed to the wall through 2 x 57 dia stainless steel plates each requiring 3 fixing bolts/screws.
- Fixings are not supplied with the seat and should be to suit the wall structure where installed.
- The detent should be fixed to the wall once the seat is mounted in position with the spring retainer at the top of the detent.
