

DE120130 DELABIE BOB WALL MOUNTED WASHBASIN

DESCRIPTION

The Delabie BOB Wall Mounted Washbasin is a durable, hygienic stainless steel basin designed for commercial, healthcare, education and public washroom applications. Manufactured from bacteriostatic 304 stainless steel with a polished satin finish, it offers excellent resistance to corrosion, vandalism and heavy daily use.

Its clean, minimalist design features rounded edges for improved user safety, while the shrouded basin and concealed trap provide enhanced vandal resistance and a tidy appearance. Installation is quick and straightforward thanks to the front-fixing stainless steel mounting frame.

The basin has a 310mm internal diameter and is supplied complete with a waste, trap and fixing kit. It is manufactured without an overflow or tap hole, making it suitable for a wide range of tapware configurations. CE marked and compliant with EN 14688, the DE120130 is backed by Delabie's industry-leading 30-year warranty.
