

DE164130 DELABIE BOB HEAVY DUTY WASHBASIN

DESCRIPTION

The Delabie BOB Heavy Duty Wall Mounted Washbasin is a robust stainless steel basin designed for high-use and vandal-prone environments, including healthcare, correctional facilities, education and public amenities. Manufactured from bacteriostatic 304 stainless steel with a polished satin finish, it delivers exceptional durability, hygiene and corrosion resistance.

Built for demanding applications, the heavy-duty model features a reinforced stainless steel mounting frame, concealed trap and shrouded basin to maximise strength and vandal resistance. Rounded edges improve user safety, while the front-fixing mounting system enables quick and straightforward installation.

The basin has a 310mm internal diameter and is supplied complete with a waste, trap and fixing kit. It is manufactured without an overflow, providing a clean, hygienic design. CE marked and compliant with EN 14688, it is engineered for long-term performance in commercial environments.
