MI-CM1125
MACDONALD CAMPUS BTW RIMLESS S-TRAP PAN & SEAT WITHOUT LID

DESCRIPTION

The MacDonald Campus is a practical yet compact toilet range designed to maximise space efficiency and create a more spacious bathroom environment.

The MacDonald Campus toilet comes standard with Rimless technology, delivering a superior level of hygiene. This advanced flushing system projects water fully around the front of the pan for a more complete and effective flush. Rimless flushing also makes cleaning easier and helps reduce bacteria and dirt by more than 90%.

The MacDonald Campus toilet is fitted with a seat without a lid, helping to prevent children from standing on and breaking the lid. This makes it a practical choice for school and other high-use bathroom environments.

The MacDonald Campus range is available in both back-to-wall toilet pan (as shown) and wall-faced toilet suite formats.

- Trap type: P-trap or S-trap outlet connections, see trap adaptors under models.
- Inlet: Ø55mm inlet connection.
- Fixing: PLSJD221 floor fixing kit included.
- Seat: MacDonald Campus toilet seat without lid.
- Dimensions: All dimensions in mm. Tolerance ±5% for below 200mm and ±3% above 200mm.
- Flushing: Refer separate literature for our flushing valves and inwall cisterns.

MODELS
