MI-ED1124S
MACDONALD EDEN BTW RIMLESS PAN & SOFT-CLOSE SEAT

DESCRIPTION

The MacDonald Eden is an elegant, yet compact toilet range designed to maximise space efficiency and create a more spacious bathroom environment.

The Eden toilet comes standard with Rimless technology, delivering a superior level of hygiene. This advanced flushing system projects water fully around the front of the pan for a more complete and effective flush. Rimless flushing also makes cleaning easier and helps reduce bacteria and dirt by more than 90%.

The Eden toilet seat features a soft-close mechanism, helping to prevent accidental dropping and potential damage to the pan. If you prefer a seat without a lid, please refer to the MacDonald Eden range.

The MacDonald Eden range is available in both back-to-wall toilet pan (as shown) and wall-faced toilet suite (see MI-AS1224) formats.

- Trap type: P-trap or S-trap outlet connections, see trap adaptors under models.
- Inlet: Ø55mm inlet connection.
- Fixing: MI-WCPFK floor fixing kit included.
- Seat: Eden soft-close toilet seat and lid.
- Dimensions: All dimensions in mm. Tolerance ±5% for below 200mm and ±3% above 200mm.
- Flushing: Refer separate literature for our flushing valves and inwall cisterns.
