

**RA-CO1244X-XX**

COMPACT ACCESSIBLE WALL FACED TOILET SUITE WITH  
RAISED BUTTON

**DESCRIPTION**

The Compact accessible toilet range has been created to provide comfortable convenience to people with additional needs. Apart from its broad dimensions, Compact accessible toilets also come standard with Rimless technology which delivers the ultimate in hygienic flushing. Rimless technology ensures water is fully projected around the front of the toilet pan giving a completely clean flush. Rimless flushing makes it easier to clean and reduces bacteria and dirt by more than 90%.

When used with the soft close seat and lid, the Compact suite meets the requirements of AS1428.1:2009 as being suitable for use in disabled bathrooms.

Compact accessible is available in wall faced toilet suite (as shown), wall faced toilet pan or wall hung toilet pan formats.
