

Z1996

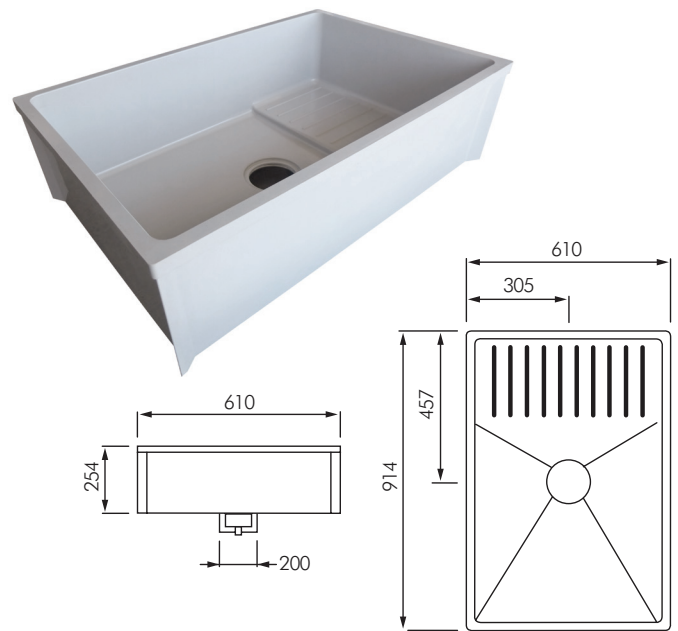

FLOOR MOUNTED CLEANERS SINK

Z-1996-24 shown with Z-BS-24 bumper guard set

Z-1996-36

DESCRIPTION

Zurn 1996 cleaners sinks are floor mounted, molded from a high density composite and are supplied with optional wall and edge protection.

Also available are engineered commercial grade faucets with wall support struts enabling buckets to be hung off the faucet at an easily reached height. Faucets are supplied with integral backflow protection allowing the connection of optional short hose.

INSTALLATION

Zurn 1996 cleaners sinks are floor mounted using an integral stainless steel easiclean waste as per the dimensions.

Sink should be installed using a bead of silicon to bed the sink and also to provide a seal between wall and sink on the edges. If wall guards are used also run a bead of silicon in the corner between each wall guard.

NOTE: This is a moulded product for commercial use only.
