## ACCESS PANELS FOR ZURN FLUSHING VALVES

**FOR USE WITH:**  
ZURN Single Flush  
Flush Valves

Front edge of frame to  
mount max 15mm from  
finished face wall

### DESCRIPTION

ZA access panels are designed to give access to recess mounted ZURN single flush, flushing valves.

Panel fabricated in 1.6mm Type 304 stainless steel with a No 4 brushed finish. Standard size 345 x 345, but also available as -SP 345 x 450 where greater access to valve is required.

ZA access panels are available in:

- Blank - to suit valves where the button is remotely mounted from the valve.
- With 38mm hole - to suit valve supplied with standard Zurn button assembly.
- To suit Zurn EMS sensors - where the sensor is mounted on the panel giving direct access behind the panel.
- To suit Zurn EMSS sensors - where the sensor is mounted on the panel giving direct access behind the panel.

**Heavy Duty versions using 2mm plates with radiused edges are available (refer separate literature).**

## INSTALLATION

Wall should be framed to provide an opening as per dimensions shown (right) for screw fixing frame prior to lining. Do not set access panel frame further than 15mm from finished wall face. Ensure panel is positioned so button assemblies do not foul on valve body behind.

Ensure position of panel does not conflict button or sensor assemblies with toilet seat and/or lid. If used on disabled compliant WC's, avoid conflict with any back rest.

## SPECIFICATION
